We also have various arts specialised in different art forms Sketch painting artists, Graffiti artist, Indian painting artist, portrait artists etc

We have categories design in following categories for better understanding, as the categories and patterns in design is far beyond this list

# RENTAL ART

The concept started with the feeling that an art form can change the mood of a Human. Why not provide it in locations, where every individual spends his maximum time of the day.

Major 2 reasons why rental art:

Every one who are passionate about art cannot purchase it as it requires huge investment for each art and time to identify one most suited for one

Some times after purchasing one get bored or would like an replacement as per the change in interior

So ARTISTIC WORLD emerged

Budget friendly and replacement facility.

Without any hassle for transportation and fixing cost.

An art piece is delivered to your doorstep along with fixing to the wall.
